EXPERIENCE

Web Developer | Google   Dec. 2021 -present

- ❏ Member of Google Web Fellows, a one-year intensive Tech career training program with 85 cohorts.
- ❏ Designed and created multi-page form webpages to collect user information for a particular survey.
- ❏ Collected, analyzed, and transformed data into insights using the browser database (IndexedDB) to ensure a better user experience.
- ❏ Designed and built reusable web components and progressive web apps.
- ❏ Automated workflows for a variety of projects using continuous integration, continuous delivery, and continuous deployment (CI/CD).
- ❏ Collaborated with a diverse software development team on a variety of projects using kanban.

Web Developer |Axios Solution Inc   Mar. 2019 - Dec. 2021

- ❏ Designed and developed web applications for diverse and multifaceted clients using JavaScript, React, and Node.js from front-end to back-end in collaboration with the team of developers.
- ❏ Developed dynamic and interactive websites that ensured high traffic, page views, and a better user experience, resulting in a 15% increase in sales revenue.
- ❏ Developed and implemented highly responsive user interface components using React concepts.
- ❏ Collected, analyzed, and transformed data into insights within the AWS ecosystem using various data processing tools as per the requirements of customers.
- ❏ Provided world-class customer and client service in a professional and courteous manner on contentious website updates for event-based clients.

Personal Projects:

- ❏ Developed the Movie-Lookup PWA with React, PWA, and IndexedDB.
- ❏ Recreated Apple's current website using React for various pages and sections and integrated Apple's YouTube channel with the website using the REST API.
- ❏ Built an Amazon-clone using React, which is an e-commerce store with full functionality, front and back end.
- ❏ Built a Netflix-clone using React, which is an online video streaming service.

Assistant Facility Manager |SP Plus Corporation   Mar. 2017 - Mar. 2019

- ❏ Maintained and made adjustments to customer needs resulting in 98.5% customer satisfaction.
- ❏ Responsible for daily data entry, compiled and interpreted over $25,000 in business reports to generate insights for key operational decisions.

Lecturer |Haramaya University   Oct. 2010 - Feb. 2017

- ❏ Each year, taught four food science courses, assisted with two laboratory activities, and supervised 12 students working on their thesis projects.
- ❏ Served in the following leadership roles:
    1. *Team member* of First-year student support | Oct. 2015 – Dec. 2015
    2. *Head* of Food Science and Postharvest Technology Department| Jan. 2016 – Feb. 2017

EDUCATION

Evangadi INC | Full Stack Web Development (MERN) Bootcamp   Graduated Mar. 2019

- ❏ Engaged in an intensive Full Stack Web Development training program designed to prepare participants for a position in Web application/software development (Front-End and Back-End) and learn about coding, programming, professionalism, persistence, and the essential behavioral skills and mindsets to be successful on the job.
- ❏ Oversaw multiple enterprise-level projects, including the rebuilding of high-profile websites from design to implementation.
- ❏ Built a wide range of websites from the front and back ends.
- ❏ Collaborated with a diverse student body to solve problems, which included testing codes and debugging errors with a variety of development tools.

Haramaya University | Master of Science in Food Science and Technology   Graduated Jul. 2015

Haramaya University | Bachelor of Science: Food Science and Post-Harvest Technology   Graduated Jul. 2010
